

Stefano Gubiolo

02 Aprile 1999, Bassano del Grappa (IT)

About me

I've always been curious about how the things around me were conceived. I'm passionate about cultures and their differences. I'm interested in understanding how communication changes depending on the country. As for personality: I'm not very talkative but I can assert my thoughts in discussions. I prefer the projects in teamwork because I like to compare myself with other colleagues.
